

# DesignPro Tools Plus

Visual design for AFP and  
Xerox print environments

The power of Visual PPFA,  
AFP, and Xerox resource  
creation in one package.

DesignPro Tools™ Plus  
provides a visual interface  
that enables document  
designers to create and  
edit the forms, fonts, and  
images needed for business  
communications.

DesignPro Tools Plus  
eliminates the need for  
scripting or coding of print  
resources and provides full  
support for all AFP and  
Xerox resource formats  
and printstreams.

**elixir**

## AFP forms, fonts, and graphics

Import or create all native AFP resource formats. Design new forms or import existing overlays for editing, then save in the preferred format. DesignPro Tools Plus generates compiled overlays, eliminating the need for a separate OGL compiler.

## Visual PPFA editor

PPFA object and source code is edited in a visual interface. No scripting or coding is required for PPFA applications.

## Color management resources

Color Management Resources (CMR) is the foundation for AFP color management. DesignPro Tools Plus utilizes CMR to provide all color management information required to process AFP print jobs and maintain consistent color between devices, including ICC profiles and halftones.

## Xerox forms, fonts, and graphics

Support for FRM and FSL forms. Edit Xerox raster fonts and alternatively create fonts from TrueType, Adobe Type1, or OpenType. Support for character level editing and special effects such as reverses, darkening, slimming, and halftones.

Edit or create Xerox IMG and LGO as well as BMP, TIF, and JPG including clean-up edits for scanned images. Support for color, highlight, grayscale, and black and white image formats. Full image transformations include rotate, mirror, outline, filter, and halftone. Includes Xerox screen and shade pattern palettes.

## Tagged forms for DocuMerge

DesignPro Tools Plus provides variable data merging capabilities to produce Normalized Metacode files for use with Oracle's DocuMerge application.

## Highlights

- ✔ Edit form, font, and image resources graphically; no pre-conversion
- ✔ Produce Normalized Metacode for Oracle's DocuMerge
- ✔ Schedule and automate conversions and delivery to print
- ✔ Convert between AFP and Xerox formats to Windows, Adobe, and Quark compatible formats
- ✔ Edit PPFA object or source code visually
- ✔ Proof on demand in PDF

## AFP environment support

### PPFA applications

#### Input:

- / AFP PageDef/FormDef: OBJ, SRC  
Traditional and Record formats
- / Elixir® PageDef/FormDef: DBF, EPD, EFD

#### Output:

- / AFP PageDef/FormDef: OBJ, SRC  
Traditional and Record formats
- / Elixir® PageDef/FormDef: EPD, EFD

### Forms

#### Input:

- / AFP: OVE, OGL
- / Application Files: Microsoft Word, Adobe Acrobat, InDesign and PageMaker, PDF
- / Elixir ELX, EFR
- / MO:DCA

#### Output:

- / AFP: OVE, OGL
- / Elixir ELX, EFR
- / Image: JPG, IMG, TIF, PageSeg
- / PDF, PCL, PostScript

### Fonts

#### Input:

- / AFP: Coded X0, C0
- / Adobe PostScript Type1
- / Bounded/Unbounded Box fonts
- / DBCS/SBCS
- / Elixir legacy HDR and coded fonts
- / PCL: FLJ
- / TrueType

#### Output:

- / Adobe PostScript Type1
- / AFP: Coded X0, C0
- / AFP: Outline
- / Elixir legacy HDR and coded fonts
- / PCL: FLJ

## Xerox environment support

### Forms

#### Input:

- / Elixir: ELX, EFR
- / Windows applications: Microsoft Word, Adobe Acrobat, InDesign and PageMaker, PDF and Windows EMF
- / Xerox: FRM, FSL

#### Output:

- / Elixir: ELX, EFR
- / Image: IMG, JPG, SEG, TIF, PageSeg
- / PDF, PCL, PostScript
- / Windows: EMF
- / Xerox: FRM, FSL, LCDS-Spectrum

### Fonts

#### Input:

- / Adobe PostScript Type1
- / Elixir legacy HDR and coded fonts
- / OpenType
- / PCL: FLJ
- / Windows TrueType
- / Xerox: FNT, 5Word, 9700

#### Output:

- / Adobe PostScript Type1
- / Elixir legacy HDR and coded fonts
- / PCL: FLJ
- / Xerox: FNT, 5Word, 9700

### Images

#### Input:

- / BMP, JPG, LP3, PCX, PNG, TIF
- / Elixir LP3
- / Xerox: IMG, LGO

#### Output:

- / BMP, JPG, LP3, PCX, PNG, TIF
- / Elixir LP3
- / Xerox: IMG, LGO

## FP environment support

### Images

**Input:**

/ AFP PageSegs: GOCA, IM Image, IOCA  
/ FS10, FS42, FS45  
/ BMP, JPG, LP3, PCX, PNG, TIF

**Output:**

/ AFP PageSegs: GOCA, IM Image, IOCA  
/ FS10, FS42, FS45  
/ BMP, JPG, LP3, PCX, PNG, TIF

## Xerox environment support

### Converters

**Input:**

/ BMP, JPG, LP3, PCX, PNG, TIF  
/ Elixir DAT files

**Output:**

/ BMP, JPG, LP3, PCX, PNG, TIF  
/ PDF, PCL, PostScript  
/ Xerox Metacode and Normalized Metacode

## System requirements

### 32-Bit | 64-Bit

**Ram:**

1-2 GB, 4 GB is recommended

**HDD:**

10 GB (Recommended 20 GB depends on usage)

**Processor:**

1 Gigahertz(Ghz) or faster processor or SoC.  
Intel Core i3 (3rd Gen), AMD A6 or higher is recommended

**Operating systems:**

Windows 7 (SP1), Windows 8.1, Windows 10
